GOC Wishlist

Bathroom Remodel (\$30,000): A fully renovated and accessible bathroom can greatly improve the comfort and dignity of our clients. This investment will ensure a clean and functional space for those we serve.

More Parking (\$20,000): Increasing the parking capacity will make it easier for clients, staff, and volunteers to access our services. A well-organized parking area can enhance the overall experience for everyone who visits the center.

Office Chairs (\$15,000): Comfortable and ergonomic office chairs are essential for our administrative staff. These chairs will improve productivity and well-being, ensuring that our team can continue to support our Members effectively.

Outdoor Lighting (\$7,000): Adequate outdoor lighting enhances safety and security for clients and visitors. It will also create a welcoming atmosphere and extend the hours of operation for evening events and programs.

Two 7-Passenger Vans (\$90,000): Transportation is a crucial service for our Members enabling them to access job opportunities, healthcare, and other essential services. Acquiring two 7-passenger vans will expand our capacity to provide reliable and safe transportation.

Mortgage Payoff (\$250,000): Paying off the mortgage will free up funds that can be redirected to expanding and improving our programs and services. It will also provide financial stability and ensure that we can continue to serve the community for years to come.

By fulfilling these wishes, the Gainesville Opportunity Center can enhance its facilities and services, ultimately making a more significant impact on the lives of those it serves.

GOC Wishlist

Professional Quality Stainless Steel Pots and Pans with Lids (\$250): Professional grade culinary tools help our Members to increase their skills using tools that they will encounter in future employment.

Cutting Boards (\$30 each): Industrial grade cutting boards allow our Members to keep our food sanitary and will last for years to come. Learning basic knife and prep skills helps our Members both in future jobs and in their home kitchens.

Carbon Steel Wok (\$65 each): Woks are a staple of professional and home kitchens, and are for much more than just asian-inspired cuisine.

Food Processor (\$250): A professional quality food processor would help us to streamline our cooking process and expand our menu to more advanced recipes that require uniform processing.

Drink Dispensers (\$65): Countertop drink dispensers would provide a way to dispense cold drinks to members for lunch, providing an essential task for our Work Ordered Day.

By fulfilling these wishes, the Gainesville Opportunity Center can enhance its facilities and services, ultimately making a more significant impact on the lives of those it serves.
